VXHAHDM-4

4 Channel Analogue High Definition Recorder

The Concept Pro VXHAHDM-4 is a four channel professional DVR that can record up to 1080p resolution video footage on all channels. Compatible with all AHD, HD-TVI and traditional analogue cameras, the DVR offers a range of features suited for the most security-sensitive requirements including remote monitoring station integration, P2P connectivity for remote viewing on smartphone and tablets and compatibility with the license-free iPims VMS.

Professional Remote Monitoring

Provides 24 hour remote monitoring for clients and is available on all Concept Pro professional recorders with Alarm Receiving Stations using Immix Cloud and Sentinel platforms.

**For alarm inputs upgrade to VXHAHD-4.*

iPims - License Free Software

iPims is a powerful, license-free video management software solution that can connect to all Concept Pro professional IP, AHD and Analogue CCTV recorders and record footage from up to 256 recorders regardless of platform.

Secure P2P Networking

Utilising a Secured European server, P2P is the simplest way to connect a Concept Pro professional recorder for remote viewing on smartphones and tablets.
